

Building Services Engineer / TGA-Planner (m/f/x)

Location: Haren

Working Hours: Full-time employee

1,400 employees. 24 locations worldwide. 60,000 containers in circulation. We have been growing steadily since our foundation in 1972. We specialise in mobile space solutions in container construction. Our family-run company is growing dynamically, which is why we are constantly looking for qualified, friendly and team-minded employees in all areas worldwide.

Shape the future of modular building technology with us as an **Specialist planner TGA (HVAC / Electrical engineering) (m/f/x)** - efficient planning, standard-compliant implementation and sustainable solutions! Become part of our team at the Eurohafen site in Haren/Hüntel (Hünteler Str. 30). Here, the required container frames are produced automatically with the help of robot technology and the industrial series production of our mobile room solutions in container construction is driven forward.

We offer exciting tasks, opportunities for further development and a relaxed muin culture. Interested? Then we should get to know each other better.

Your tasks

- + Planning and optimisation of HVAC systems and development of standardised HVAC concepts for modular container solutions
- + Creation of HVAC concepts taking into account efficiency, sustainability, circuit diagrams and legal requirements
- + Providing technical support and advice to internal departments and liaising with suppliers and external partners
- + Providing technical support and advice to internal departments (sales, design, production) on issues relating to HVAC technology and building services engineering
- + Creation of technical documentation including calculations and drawings with relevant software
- + Supporting the implementation, quality control and optimisation of existing TGA systems
