

Planning Engineer / Technician – PHAC & Ventilation Engineering - ELA Container Offshore (m/f/x)

Location: Haren

Working Hours: Full-time employee

1,600 employees in 18 locations around the world with a fleet of 60,000+ circulating containers. Since ELA's establishment in 1972, our business has continuously been expanding, we are specialists in mobile room solutions. Our family-run company based in Haren (Ems), Germany, is growing at a fast pace and we are actively looking for qualified and dedicated team players to join us locally, internationally and beyond.

Would you like to play a technical role in shaping challenging offshore projects? With us, you'll plan and design plumbing, ventilation and air-conditioning systems for offshore accommodation and container facilities – from the initial concept right through to delivery. Bring your technical expertise to the table and work with us to develop tailor-made solutions!

We are currently looking for a Planning Engineer / Technician - PHAC & Ventilation Engineering (m/f/x) for ELA Container Offshore GmbH – a company within the ELA Group. You can find further information about the company via the following link: <https://www.ela-offshore.com/en>.

Your Future Role

- + Planning and design of plumbing, fresh water, waste water, ventilation and air-conditioning systems for offshore accommodation and containerised facilities
- + Preparation of technical concepts, system layouts and detailed design documentation
- + Sizing of pipework and ventilation systems in accordance with applicable regulations
- + Calculation of air flow rates, pressure losses, air distribution and components
- + Preparation of drawings, bills of materials, material requirements and documentation
- + Technical coordination with clients, suppliers and internal specialist departments
- + Support for production and quality control during implementation
- + Project support from the quotation phase through to delivery, as well as the further development of standardised solutions

What You bring to the Team

- + A qualification as a technician or master craftsman in heating, ventilation and air

- conditioning (HVAC) (m/f/x) or a degree in utilities engineering, building services engineering, energy engineering or a comparable discipline
- + Experience in the planning and design of plumbing, ventilation and air-conditioning systems
- + Knowledge of pipework design and, ideally, the design of ventilation systems
- + Proficiency in working with technical drawings and design documentation
- + Knowledge of relevant standards and regulations (e.g. TrinkwV, VDI 6022, VDI 6023, DIN EN standards) is an advantage
- + Interest in technically challenging offshore projects
- + Very good written and spoken German and English

What you can expect from us

- + You will have flexible working hours and work flexible time
- + We want to offer you long-term prospects, which is why you will receive a permanent employment contract from us
- + Our company restaurant provides you with a fresh breakfast every day and delicious lunch options Monday through Thursday
- + We offer you individual development opportunities and interesting skills training courses
- + Our company fitness programme: thousands of gyms, swimming pools, etc. are available to you throughout Germany and, in some cases, digitally, for only £30 per month
- + You can expect flat hierarchies and short decision-making processes
- + We take care of your company pension scheme and offer you capital-forming benefits
- + You will receive attractive discount offers from over 1,500 brands in all relevant areas of life on the ELA Corporate Benefits portal
- + Network at our regular employee events
- + At ELA, you can expect a varied job in a global company, an uncomplicated working environment and a wide range of opportunities to contribute your own ideas
- + We offer you company health insurance
- + We offer you an attractive bike leasing scheme

How You can apply

Please send your documents via our career website <https://career.ela-container.com> or via email career@ela-container.com including your CV, your essential certificates and qualifications, as well as a few lines about yourself and why we fit. We would then like to meet and have a personal conversation with you. We look forward to hear from you!
