

Apprenticeship as a Metal Worker, specializing in Construction Technology 2026 (m/f/x)

Location: Haren

Working Hours: Apprenticeship

1,600 employees in 18 locations around the world with a fleet of 60,000+ circulating containers. Since ELA's establishment in 1972, our business has continuously been expanding, we are specialists in mobile room solutions. Our family-run company based in Haren (Ems), Germany, is growing at a fast pace and we are actively looking for qualified and dedicated team players to join us locally, internationally and beyond.

Do you want to work with metal and see what you've created in the end? Then start your apprenticeship as a metalworker (m/f/x) and help us build custom container solutions based on blueprints. From cutting to assembly, you'll be right in the thick of it, experiencing true craftsmanship.

Sound exciting? Then ELA Container is the perfect place for you! Here you'll find exciting challenges, real opportunities for growth, and a strong team with a laid-back, friendly atmosphere.

Your apprenticeship at ELA

During your 3.5-year apprenticeship, you will learn about the various activities of a metalworker in the special construction of our containers. The training is offered by ELA Container GmbH. You can find more information about the company below.

Metalworkers specialising in construction technology manufacture and assemble roofs, façade elements, gates, window frames or protective grilles made of steel or other metals. You often make one-off pieces to customer specifications. You follow technical drawings when working and processing light metals or steel by hand or by machine. You cut metal plates, tubes or profiles, cut them to size and shape them. Then you weld, rivet or screw the individual components together. During on-site assembly, you also install locking and security systems and, for example, mechanical, hydraulic and electric drives for gate or sun protection systems. You also maintain and service their products.

How You can apply

Information on the application process

- + If you apply for an apprenticeship or dual study programme with us, you will receive feedback from us by email in the month of your application, at the latest within four weeks. This will inform you whether we will invite you to an initial personal meeting.
- + This meeting usually takes the form of a one-to-one interview at our head office in Haren (Ems). You will also receive more detailed information about training at ELA.

It's so easy to apply

The best way to apply is to send your documents directly via our career portal at <https://career.ela-container.com/> or by email to career@ela-container.com. Please include your CV and the most important certificates and qualifications. We are also interested in what makes you special, why we are a good fit and how you became aware of us. A personal interview is the best way for us to get to know each other.

We look forward to hearing from you!
