

Electronics Technician (m/f/x) - ELA Container Offshore

Location: Haren

Working Hours: Full-time employee

1,600 employees in 18 locations around the world with a fleet of 60,000+ circulating containers. Since ELA's establishment in 1972, our business has continuously been expanding, we are specialists in mobile room solutions. Our family-run company based in Haren (Ems), Germany, is growing at a fast pace and we are actively looking for qualified and dedicated team players to join us locally, internationally and beyond.

Do you want more than just standard installations? With us, you will ensure that our containers function safely in offshore operations worldwide.

We are currently looking for an Electronics Technician (m/f/x) for ELA Container Offshore GmbH – a company within the ELA Group. You can find further information about the company via the following link:<https://www.ela-offshore.com/en>.

Your Future Role

- + Independent testing and electrical acceptance of container units in accordance with applicable standards and customer specifications
- + Carrying out visual inspections, insulation measurements, functional tests and safety tests
- + Creating test reports and documentation in accordance with internal specifications and external standards
- + Technical interface and contact person for subcontractors during assembly and commissioning
- + Carrying out electrical and mechanical troubleshooting on modular container units (e.g. e-containers, technical containers)
- + Connecting and commissioning the containers on ships, in shipyards, port terminals or offshore platforms
- + Testing the electrical systems (incl. protective measures, earthing, emergency shutdowns) in accordance with applicable standards (e.g. DIN VDE, DNV)
- + Analysing and rectifying technical faults, including replacing defective components on site and creating service logs to document the work carried out
