

Electrical Engineering Coordinator (m/f/x)

Location: Haren

Working Hours: Full-time employee

1,600 employees in 18 locations around the world with a fleet of 60,000+ circulating containers. Since ELA's establishment in 1972, our business has continuously been expanding, we are specialists in mobile room solutions. Our family-run company based in Haren (Ems), Germany, is growing at a fast pace and we are actively looking for qualified and dedicated team players to join us locally, internationally and beyond.

Would you like to take on responsibility, actively help shape production processes, and apply your electrical engineering expertise where it makes a direct impact? In this role, you'll combine technical planning, operational coordination, and technical leadership in the electrical engineering field.

You'll ensure that our production orders are thoroughly prepared from an electrical engineering perspective, implemented on schedule, and executed to high quality standards. At the same time, you'll serve as a key liaison between production, engineering, and other departments.

Sound exciting? Then ELA Container is the perfect place for you!

Your Future Role

- + Electrical planning and technical preparation of production orders
- + Management of personnel and resource planning in the electrical engineering department
- + Monitoring of proper electrical installation and quality standards
- + Coordination and monitoring of manufacturing and modification processes for special-purpose containers, sanitary containers, and sales containers
- + Interface management between departments to ensure projects are completed on schedule
- + Assumption of leadership and coordination responsibilities

What You Bring to the Team

- + Successfully completed vocational training in electrical engineering, such as Electronics Technician for Energy and Building Technology, Electronics

- + Technician for Industrial Engineering (m/f/x), etc., supplemented by a master craftsman's certificate, technician's certification, or a comparable qualification
- + In-depth knowledge of electrical installation as well as the maintenance and repair of electrical systems
- + Experience conducting inspections in accordance with DGUV Regulation 3 is a plus
- + Leadership experience is desirable but not required
- + Experience with ERP systems (e.g., MS Dynamics Navision, SAP) is a plus
- + Proficiency in using standard MS Office programs
- + Organizational skills and an understanding of production processes

What you can expect from us

- + We want to offer you **long-term prospects** – which is why we'll provide you with a permanent contract
- + We offer you company **health insurance**
- + We'll organise a **comprehensive induction programme** for you at our head office in Haren (Ems), so that you can get to know the whole company, our products and our colleagues
- + We offer you regular **massage** appointments with our in-house physiotherapist
- + We provide you with **fresh fruit** and **drinks every day**
- + We'll kit you out with **high-quality workwear** for your role with us
- + Our **corporate fitness scheme**: thousands of gyms, swimming pools and more are available to you throughout Germany – and in some cases digitally – for just €30 a month, with no restrictions
- + We take care of your company pension scheme and offer you **capital-forming benefits**
- + **Corporate Benefits**: attractive online shopping offers and discount codes from over 1,500 providers across all relevant areas of life

How You can apply

Please send your documents via our career website <https://career.ela-container.com> or via email career@ela-container.com including your CV, your essential certificates and qualifications, as well as a few lines about yourself and why we fit. We would then like to meet and have a personal conversation with you. We look forward to hear from you!
