

## Machine Operator - Weimar GmbH (m/f/x)

Location: Lotte

Working Hours: Full-time employee

Founded in 1948 by roller shutter and blind manufacturer Heinrich Weimar, the company is Europe's leading specialist in windows and doors for the container industry. ELA Container has been sourcing Weimar products since the 1990s, initially through intermediaries. Since 2003, Weimar GmbH has been manufacturing both windows and window accessories – including directly for ELA. In the early 2000s, development began on the company's best-selling product, the 'Compact' window system, which was developed in-house. Since 2021, Weimar GmbH has been part of the ELA Container Group, but continues to operate under the name Weimar GmbH. Further information about the company can be found at: <https://www.weimar-gmbh.de/>.

We are currently looking for additional production staff for Weimar GmbH in Lotte, a company belonging to the ELA Group that specialises in the construction of windows and doors for modular buildings.

Do you have manual skills, but find the hectic pace of construction site work no longer suits you? Are you looking for a permanent position and a motivated team? Then we have just the right challenge for you!

Interested? Then let's get to know each other better. For more information, please contact our Weimar colleague Axel Welp by [axel.welp@weimar.gmbh](mailto:axel.welp@weimar.gmbh) or by phone on +49 5404 9615-11.
